This is a suggestion of how to display your new bulletin board set.

You may also choose to use string and clothes pins to display your "Accounting Class" as I did for this other set below...

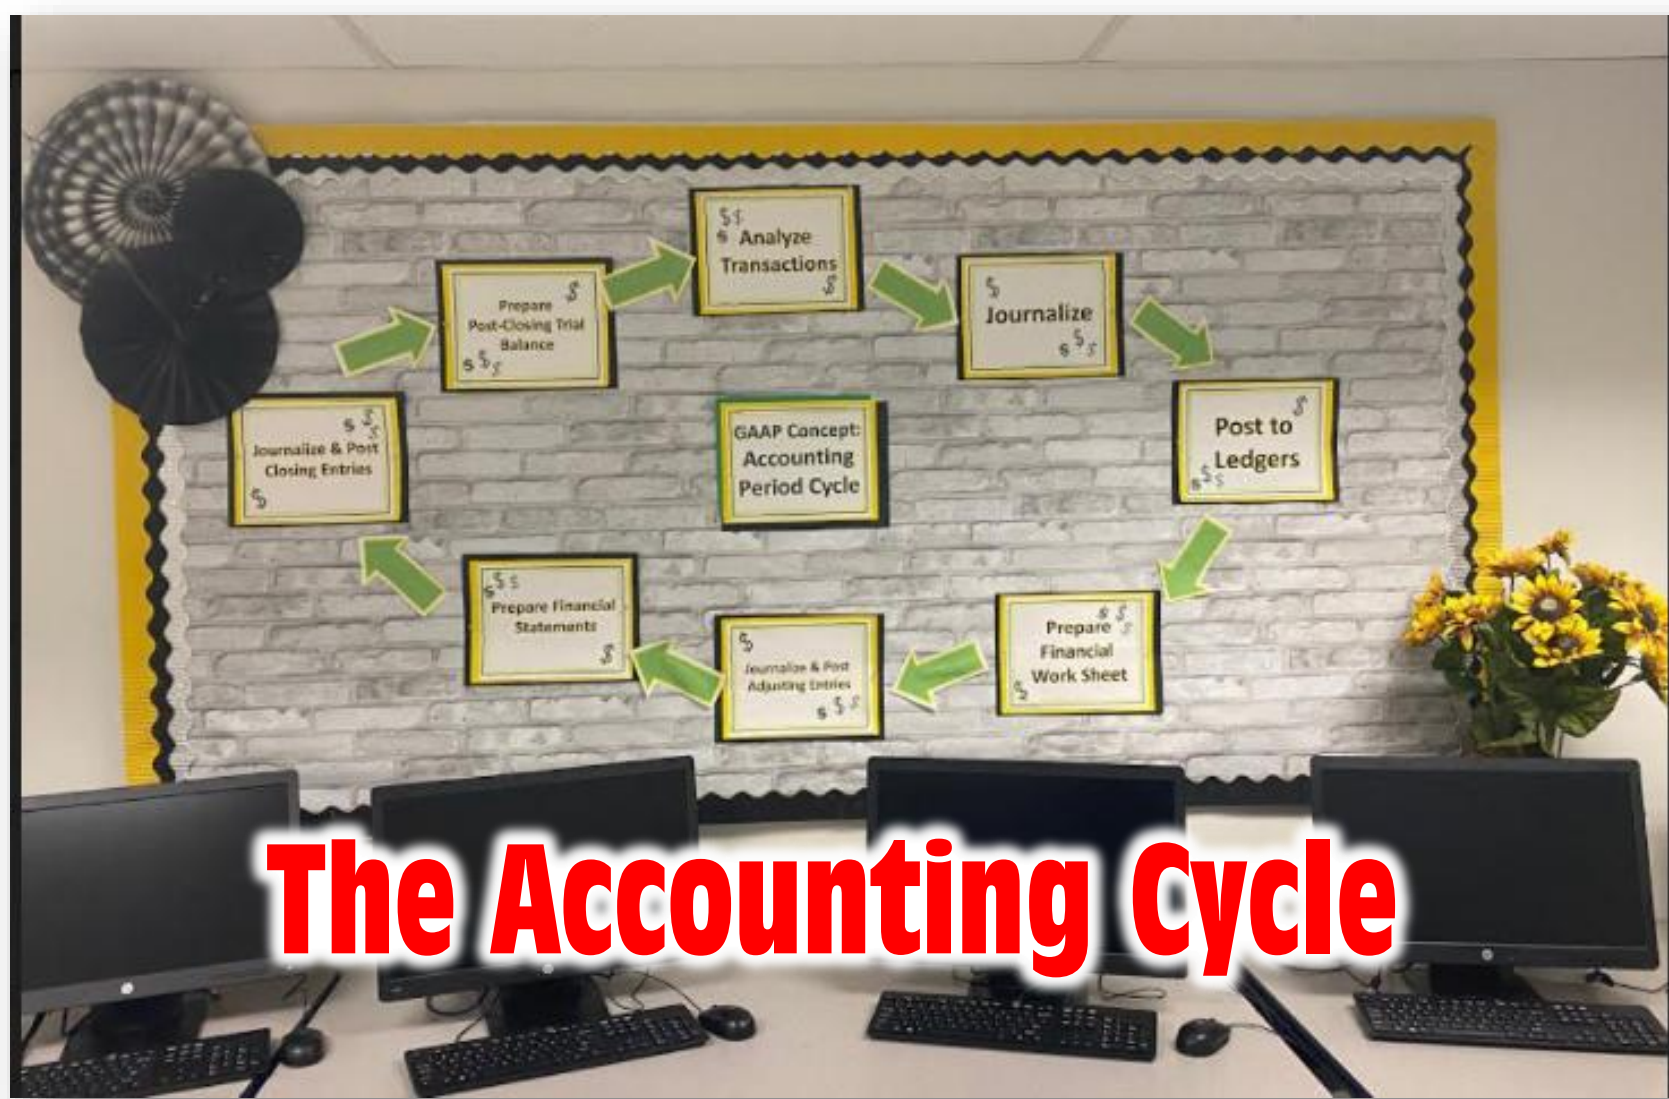

Use any color paper you want!

Of course, I had to jazz this up! I added some pockets that I cut from old blue jeans and stuck some play money in the pockets, as well as stapling some play money randomly on the board.

Teacher Tip:

I place a paper star on the Accounting Cycle step that we are currently learning to help students make connections with the accounting process...I move the star to the next step as we move on.

Display an Accounting Cycle bulletin board....

...or display linearly above your white board or on your classroom wall.

Teacher Testimonials

This bulletin board was **perfect**. I had students help me cut it all out and hang up. It looks great, was easy to use and filled with information. Perfect for my classroom.

As always, thank you for the **awesome** classroom decor!

I **love** all your resources Denise! This was a **great addition** to my business classroom.

This is a **fantastic** bulletin board idea! **Denise, you are so creative**. I put it up the bulletin yesterday at school and it looks so cute. The jean pockets are adorable. I found a wood panel background at Hobby Lobby that I used with a white border. It has a casual look that is very eye catching. Thanks Denise again for **another great resource!!!**
