Teacher Testimonials

Helped tremendously when assigning Accounting problems using Google Classroom. Thank you!

This has **saved me a ton of time!!!** So happy to have this resource to use with my Accounting students. Thanks again!

I am teaching accounting online, and I've used the multicolumn journal and income statement in my class. It's **so much easier than creating my own**, and I'm modeling each transaction with my students in the multi-column journal and they have all told me how **EASY** it is to follow by seeing it online!
