This resource has made teaching accounting to non-accounting majors so much easier! Participation and interaction have been increased by including these snips. Students are referring to them as we move from topic to topic. Thanks.

This resource has really helped my Accounting class re-visit concepts throughout the semester. A fantastic resource that requires no prep!

 Extremely satisfied

A great visual aid for students to keep with them throughout their accounting journey.

This is one of my all time favorite purchases on TpT. Denise makes great material and this is one that I use to introduce and review concepts in my Accounting class. The year I purchased it I started to use it, but fell off the wagon. I'm teaching Accounting again this year and my kids are starting to get into the idea of using these notes.

 Extremely satisfied

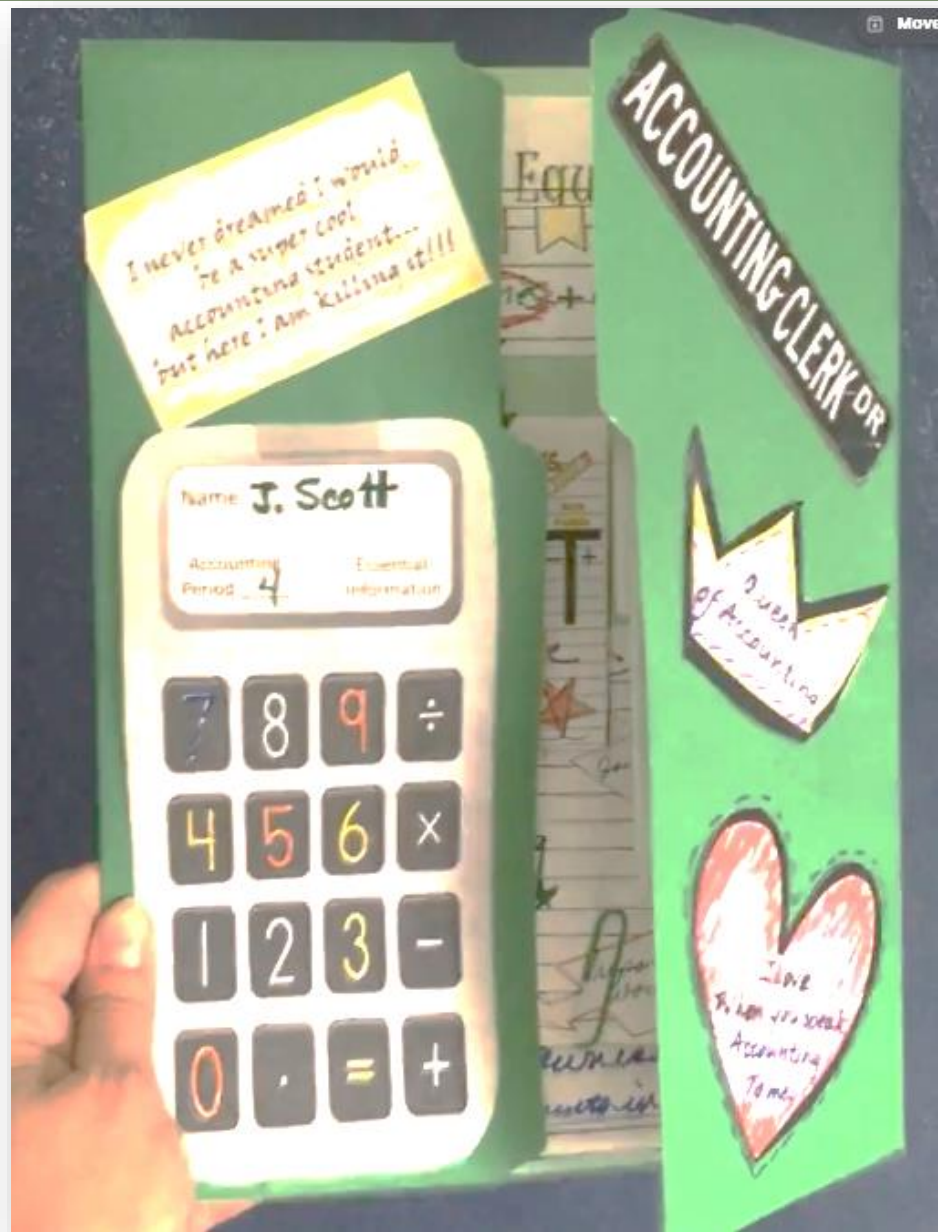

Taking notes can be a tedious task for even the best students! Using these pre-made notes were awesome. The students could be creative and show their coloring skills and make the notes "their" own.

 Extremely satisfied

Students love their note portfolio! A great way to get them off the computer and let them show their creativity. I just wish I saw the digital version before I purchased as I currently have a few virtual learners.
