## Teacher Testimonials

This assignment was used as a review activity. It provided an **excellent opportunity** for students to revisit and reinforce their comprehension of the market structure unit covered in my Introduction to Business class.

As with all of Denise's materials, this is a **great supplement** to used while teaching Business Law. My students **enjoy** the interactive and **user friendly** online assignments compared to notes or discussion all of the time. I believe students learn better when they take the time to research learning material then just hearing it in a lecture.
