# 21<sup>st</sup> Century Classroom lesson

✓ Students INVESTIGATE the purpose of and the cost of payment apps.

✓ Students search the web to ASSESS the risks and rewards of using a cash app.

✓ Students respond to a prompt to THINK about how to record a payment in a cash app for accounting purposes.

\$\$\$Discover More\$\$\$	
According to the same resource link, what is a payment app and when might one use one?	
In your own words, how does a payment app work?	
How much does a payment app cost?	

\$\$\$Search the Web\$\$\$
Are payment apps safe? Search the web to discover how safe they are. How are you protected as a consumer? Are there any safeguards in place to protect you? List your findings below...

\$\$\$Think and Analyze\$\$\$
One can get themselves in trouble with payment apps. If a payment app is used and the cash is not deducted from their bank account balance, an overdraft can occur. What are some solutions that you can think of, to alleviate this problem?

# Teacher Testimonials

This paired well with a corresponding lesson in Personal Finance.

I **love** these for sub days in particular, but also to help explore a topic that most students are not very familiar with.

This resource was an **excellent addition** to my classroom. It **made my job easier** and helped make my lessons **more engaging** for students.

**Great** for Accounting students. It really bridged their understand from the textbook exercises we were working on to the real world.

**My students loved this!** I am always looking for new ideas and this was a beneficial added resource to my collection!
