# Teacher Testimonials

**Great resource** for my students. It was very helpful.

A good first day of school lesson to begin them on their digital literacy journey.

**Great resource** to fill some extra time! I needed this in between units and it was easy to follow, loaded with good information and no prep. Thanks!

**Great lesson** for all students. In this growing age of technology I feel students need to also know there are dangers on the Internet and how to avoid them. **Great lesson.**
