Teacher Testimonials

Great resource for my students. It was very helpful. (8th grade)

This was a **fun project** for middle school computers students. They had **fun** designing their bedrooms. (8th grade)

This project was amazing! My students had a **great time** designing their own bedroom. Even students who usually drag their feet doing work in computer class were eager to do this. (10th grade)

Creative as all of Denise's products. Students enjoy "designing" their bedroom. **Great** for a Friday or fun break between other assignments in a Computer Applications class. (9th & 10th grade)
