# Teacher Testimonials

Used this in my business law class during the consumer law unit. **Great** for substitutes.

This was a **great supplement** and activity to review the consumer rights cover in my Consumer Protection unit. I love how interactive students get to be in these assignments and it takes away from the boring textbook work.

**Another great resource from Denise.** I used this during our hybrid learning during the pandemic when we had students both at home and at school. Both groups were engaged and enjoyed the activity.

Thank you very much! This is a **very useful** resource!
