Teacher Testimonials

Great supplemental resource for my travel and tourism class!

During my career planning unit, my business students were able to learn a lot about areas of interest and it was **way better** than taking notes!

I love these assignments. It is an easy way to review what the unit talked about and are simple to follow. I have used this in class and with a sub.
Great resource!

I enjoy this resource as a great independent work activity for my students to complete that allows them to research independently!
