# Teacher Testimonials

This was my opening activity with my seniors for our Investing unit, and it happened to be a sub day. It **worked beautifully** and sparked lots of questions the next day when I returned!

**Great** introductory activity. **Easy to use** and understand!

This is an **excellent resource** to introduce the investing topic in your class. I have purchased a few business law activities from this instructor and found them to be just as **awesome**. The assignments are easily accessible in Google and the students find them to be very enjoyable and user friendly. Nice job. Keep them coming.

I used this as a introduction with my 7th graders. It was a **great way** to give them a sneak peak.
