Teacher Testimonials

I use these all the time for review or for sub days. They are **put together so well** for the students to follow along. I usually print the "resource" links as packets so students can work on reading from material.

During my Career unit, these resources were **great resources** to use to help students complete research on their desired career that eventually will be used in their final portfolio. **Easy to use** and **great** to teach students about career clusters!
