Teacher Testimonials

Great Resource that will prove to be variable and helpful

My students were able to easily access the content in a way that provided a quick and feasible strategy to review the steps of the judicial process. **Very engaging!**

I used this to give my students extra practice and exposure to the steps in a trial. They found it **helpful** to review this information.

Rather than my traditional lecture, students were able to complete this on their own, then come into a video session to review and ask questions. It **worked very well** for a flipped lesson.
