Teacher Testimonials

All of these keyboarding files are great, but this one in particular resonates with many kids due to the subject matter.

The students loved typing the different video games info.

My students aren't fond of keyboarding homework but **they love these activities.**

Students enjoyed this keyboarding activity and especially those who love video games.

My students loved this assignment. Kept them engaged while working on it and it was fun to hear them chatting about what they were typing.
