# Teacher Testimonials

I used this with my Accounting students at the beginning of the year to reinforce classroom expectations as workforce expectations. **It worked great!**

**Great resource** to help my students, who will enter the trades, realize there are many more expectations than just showing up to work on time and doing a job. They agreed these are expectations their employers are talking about. They are learning to adjust to a changing workplace. This resource **fits nicely** into my topic how the world of business is changing. Thank you!

**I love all of Denise Leigh's interactive activities.** My students have some **great discussions** as they take charge of their own learning.
