Teacher Testimonials

I have purchased MANY of Denise's bundles over the years, and this is by far one of my favorites. **The resources are gorgeous, seriously, Denise, you outdid yourself with this one!** So many **relevant and engaging lessons** that will make your students excited to come to class.

I wish I had access to this resource before I started this course last semester. **The curriculum (lesson) library is a game-changer**, and I am now working on creating a curriculum library with my materials for other classes. I have suggested this material and others by Denise to multiple colleagues.

Love the page (the lesson library) provided with the pathway to travel through the resources.

I love the structure and pacing. In the past I have been all over the place and this keeps my class **more structured** and helps me keep kids **active and engaged** for the full class period.
